

# COOLIDGE CONFERS ON DRY FIAT NULLIFICATION PLAN

## Graham Indicates House Judiciary Committee to Reject Idea; Decree Held Legal

WASHINGTON, June 7. (P)—President Coolidge discussed today with Secretary Mellon and Chairman Graham of the House Judiciary Committee, the British resolution which would nullify the President's executive order authorizing the employment of State officers as Federal prohibition enforcement agents.

There was no announcement concerning the conference, but Chairman Graham predicted afterward that the British resolution will be acted upon unfavorably by the committee. He added that there was no doubt in his own mind about the legality of the order.

While the White House conference was in progress, the Senate Judiciary Committee passed a resolution on both the report of its subcommittee holding the order to be legal and of the prohibition committee recommending indefinite postponement of all the wet proposals for modification of the prohibition amendment and the Volstead Act.

Action on the executive order report was deferred because Senator King, Democrat, Utah, has been unable to complete his minority report. Some objection to the majority report also was raised by Senator Reed, Democrat, Missouri, who played the leading part in opposing the order in the recent wet and dry hearings.

**OFFICIAL PUNISHMENT**

When the committee took up the prohibition committee's recommendation, Senator Smith, Republican, Idaho, objected to the proposal to postpone the order. He said that the order was a punishment for the crime of drinking and that it was a punishment which should be meted out to the offender. He said that the order was a punishment which should be meted out to the offender.

**ONLY EXPRESSION**

The committee majority held that the President's order was not an "order" but a mere expression of policy. It stated in its report that the order really accomplished nothing since the Attorney General had the authority to make such appointments before the order was issued. It also stated that the order was a mere expression of policy.

**CITY DECISIONS**

On the latter proposition, Supreme Court decisions and executive orders of similar import to that issued by President Coolidge were cited to support the constitutionality of the order.

**President Roosevelt issued an order in 1907 authorizing Secretary of State to appoint officers to enforce the laws of the United States.**

**President Wilson issued an order in 1919 authorizing the Secretary of State to appoint officers to enforce the laws of the United States.**

**President Harding issued an order in 1921 authorizing the Secretary of State to appoint officers to enforce the laws of the United States.**

**President Coolidge issued an order in 1925 authorizing the Secretary of State to appoint officers to enforce the laws of the United States.**

**President Coolidge issued an order in 1925 authorizing the Secretary of State to appoint officers to enforce the laws of the United States.**

### Two Others Shot in Houston Water-Front Affray

#### Three Women Being Held for Questioning in Affair

HOUSTON (Tex.) June 7. (P)—Five persons are dead, another is seriously wounded and a seventh is in a hospital with slight wounds as the outcome of a shooting affray in a bungalow near Houston's waterfront early today.

R. B. Carter, 35 years of age, steward on the Shipping Board vessel *Brush*, apparently crazed by jealousy, suddenly whipped out a pistol, shot Mrs. Edna Wilson, 35, and Johnnie Donaghy, 30, sailor of Port Arthur, Tex., who he apparently believed was his rival for the affection of the latter.

These three later were shot and killed. Mrs. Wilson was shot in the thigh while she was running from the scene, died later today. Donaghy was shot in the chest and died later today. A fourth person, a woman, was shot and killed.

Three women were held for questioning in the affair. They were Mrs. Wilson, Donaghy's wife, and a woman named Mrs. Smith. They were held for questioning in the affair.

According to Donaghy's story to authorities, he went to the *Brush* Sunday afternoon, "to drink some beer." Later, he said, Carter came in, followed by Donaghy and another man.

"They left the room," Donaghy's story continued. "I went to the kitchen and found Carter. He was holding a pistol and was threatening me. I tried to run, but he shot me in the thigh."

John D. Spreckels, a prominent San Diego businessman, died today of a heart attack. He was 65 years old and had been ill for some time. He was a member of the San Diego Chamber of Commerce and had been active in many public affairs.

# JOHN D. SPRECKELS PASSES

(Continued from First Page)

Hawley, Germany, where he continued to develop his interest in the construction of the Pacific-California railway. He was a member of the San Diego Chamber of Commerce and had been active in many public affairs.

On November 13, 1918, San Diego realized the dream of many years by the opening of the Pacific-California railway. This project originally was undertaken by the late Edward H. Harriman of the Southern Pacific Railway, with Mr. Spreckels associated as agent and promoter.

The railroad was completed and opened for service on December 1, 1918. On the day of the opening, the great Spreckels organ in Balboa Park was dedicated to the memory of John D. Spreckels. It was a fitting tribute to a man who had done so much for the city and the state.

Mr. Spreckels lived in a beautiful residence in Coronado. His two principal avocations were music and painting. In his Coronado home he had a fine pipe organ, on which he played a fine piece of music. He was a member of the San Diego Chamber of Commerce and had been active in many public affairs.

At that time San Diego was enjoying an unprecedented growth and prosperity, but the end of the boom came and involved a cessation of construction activities. Mr. Spreckels had become identified with the Coronado Beach Company and Hotel del Coronado, and he personally advanced the money for completion of the famous hotel. He subsequently acquired a controlling interest in the company's affairs and also bought the San Diego street-railway system.

In 1922, Mr. Spreckels completed the first of the structures which he erected was the Union Building, a six-story office building of reinforced concrete, completed in 1922. In 1923 he built the Spreckels Theater Building, a combined theater and office structure covering 100,000 square feet and costing \$1,000,000. He also erected the San Diego Hotel and the Golden West Hotel and early in 1925 ground was broken on a new hotel building, to cost \$2,750,000, in the heart of the city's business district.

Mr. Spreckels was personally interested in the notable project by which the city was supplied with pure water through the Southern California Mountain Water Company. More than any other man, Mr. Spreckels influenced the architectural skyline of San Diego and he did much to give a permanent character of beauty to the city's downtown district.

# LEADS RACE FOR IOWA CANDIDACY

(Continued from First Page)

With 200,000 votes counted, Brookhart lacked less than 1000 of having a majority of the total.

A natural grouping in a primary election, involving a fight for "reconstruction" by an unnamed United States Senator and a strong effort on the part of the Republican organization to retain in office one of the party's outstanding "regulars" apparently failed to produce an unusually heavy vote.

**VOTE LIGHT**

Senator Cummins, the "regular," with the conservative element of the party behind him and Col. Brookhart, a Republican storm center for the last six years, were the chief contestants in the Republican primary. Strong campaigns had been made for both and they seemed likely today to have brought out a good portion of the party vote and over the State although State officers and numerous local issues figure in the primary.

**DEMOCRATS' CONTEST**

The Democrats also had a spectacular contest, but several State officers from prominent Republican circles, but the bulk of the voters seemed intent upon expressing themselves on the issue raised in the Republican Senatorial fight. These included Brookhart's sound on behalf of the farmers, who turned the inequality of the tariff as regards industrial protection and benefit to the farmers, and the action of the Senate in buying him in favor of the *Emmerson*, Dan. P. Cook.

Senator Cummins supports have been used by the State's Republican service, his efforts to obtain agricultural relief legislation and Brookhart's campaign with the farmers of his own party, which caused the State Central Committee to declare him deserted by the party in the 1928 campaign.

The Democratic Senatorial candidates have made little effort to attract votes to their ticket.

# BRAZIL QUILTS LEAGUE SEAT

(Continued from First Page)

The League will have to be abandoned. This was, therefore, an unfavorable day for the League.

Furthermore, the disarmament discussion was proceeding badly. Naval experts are debating such academic questions as the character of armaments, apparently not finding it possible to agree upon the definition of the fundamental problem of what constitutes armaments.

The impression is growing that the League is proceeding badly. At least in the direction of reducing European armaments, until Germany has become a part of the League, it is possible to agree upon the definition of the fundamental problem of what constitutes armaments.

### TROJANS IN CHICAGO TO SHOW WARES

**National Collegiate Meet Stated for Next Saturday**

(EXCLUSIVE DISPATCH)

CHICAGO, June 7.—Athletes from all sections of the country began to arrive in Chicago today to prepare for the annual track-and-field championships of the National Collegiate A. A. U. to be held on Friday and Saturday.

Members of the Southern California team, which won the eastern intercollegiate, are already here and working every day at the stadium.

The Trojans are led by Capt. Bud Houser, winner of the shot-put and discus throw in the eastern meet and holder of the world's record in the latter.

Capt. Dean Cromwell will take active charge of his men Monday.

Intercollegiate, with Stanford leading as its men, will be here Thursday.

The Cornhuskers are champions of the Missouri Valley Conference and Coach Henry Schulte has entered his best performers.

Loche has unofficially shattered the world's record in the 100 and 220-yard dashes.

Stanford, victor in the Pacific Coast Conference championships, will be represented by two performers, King in the high jump and Hoffman in the javelin throw. King is now in Chicago.

### OLD-TIMERS ON DIAMOND TODAY

**Dad Meek's Team Takes on Cap Dillon's Squad**

**Veteran Ball Players to be Seen at Wrigley**

**Funds Go to Aid Indigent Stars of Past**

Stars of yesterday, the baseball players in whose ears the plaudits of multitudes have roared in seasons long ago, held the state at Wrigley Field this afternoon.

Dad Meek's Athletics are slated to oppose Cap Dillon's Athletics, and appearing on the rival nine will be many of the greatest athletes in the history of the national pastime.

If the game is as good as the one last year and there's no reason why it shouldn't be—fans will get their money's worth and then some.

The old-timers know their own when it comes to handling the apple, and such slugs as Sam Crawford, Sam Dungan, Garry Cavanah and countless others are still able to blast the apple now and then.

In addition, the cause is a worthy one, receipts going to provide a home for ball players who, in their advanced age, find themselves without means of support.

Barold "Red" Grange, the galloping ghost of the gridiron, will toss the first ball, and no less a celebrity than Gene Tunney will attempt to stop the fire man's heave.

Dad Meek has lined up Spider Baum, Bill Bernhart, Ralph Works, H. West, Fred Hartman and Harry Stewart to do the pitching for him while the veteran himself will attend to the catching, along with Tub Spomer, Grindis, Graham and Jack Adams.

Poll Pettit, Bill Toner, Phil Knell, Oscar Jones, Charles Chubb and Harry Hughes will take the mound for Dillon.

### SUSPENDED POLE VAULTER PLANNING COURT ACTION

**To Make Final Attempt to Find Out Why He is Barred; Garbutt's Efforts Avail Nothing**

BY HEAVEN DYER

Charles Hoff, the suspended pole-vaulting champion of the world, is about ready to go to court over his battle with the Amateur Athletic Union of America. The disbarred Norwegian athlete will make another attempt this week to find out from the A.A.U. why he is on the black list and if unsuccessful—as he has been thus far—will start legal proceedings against the New York officials.

Hoff's plan is this: He will send a telegram to William Frost, secretary of the A.A.U. and chairman of the foreign relations committee, advising him (Hoff) has been "denied the right to compete in country. He does not expect an answer, as his previous efforts to secure such information have met with failure. Two cables or telegrams will follow the first and, provided now also ignored, the pole-vaulter will place his case in the hands of a lawyer.

It is said that Hoff's suit will be for \$50,000 and that the amount will be asked for defamation of character.

Frank Garbutt's efforts to find out why Hoff is barred have met with little or no success, despite the sending of several telegrams to Frost.

The Los Angeles Athletic Club vice-president yesterday received the following reply to one of his wires:

Frank Garbutt, Los Angeles Athletic Club, Los Angeles, Cal.

Respectfully agree with your stand on American fair play. Appeal for further competition of Hoff refused for Hoff's own good, notwithstanding friendly relations with European athletes and athletic organizations and good of sport in this country and throughout the world. Committee action absolutely fair, impartial and disinterested.

WILLIAM C. FROST, Garbutt dispatched the following wire immediately after receiving Frost's message:

Wm. C. Frost, American Athletic Club, Boston, Mass.

Thanks for your wire of June 7.

(Continued on Page 2, Column 3)

MISS WILLS IS RAPIDLY RECOVERING

**American Net Champion Will Leave Hospital in Another Week**

PARIS, June 7. (AP)—In another week it is expected, Helen Wills, American lawn tennis champion, will be out of the hospital.

She brought a branch of gonorrhea to the operation for appendicitis which she underwent on Friday last. She has a healthy appetite, too, and has been up in bed and disposed of the first real food she has had in about four days, and seemed to relish it.

Miss Wills was one of her callers today. The French star was one of the few favored visitors permitted to observe the California girl enjoying her luncheon; most of the others had to content themselves with leaving bouquets and cards, while overseas tennis enthusiasts bombarded the American hospital with cablegrams conveying good wishes.

HURKERS IN CHICAGO

(EXCLUSIVE DISPATCH)

CHICAGO, June 7.—The University of Washington tennis and junior crews will arrive here tomorrow on their way to the Foughthepore regatta in New York, the 28th last. They will work out here.

YOU won't find Hack Wilson's name in the 1926 edition of "Who's Who in Baseball." He got into the "Who's Who" of the year before on the strength of his 1924 record with the Giants. But I'm betting a few francs that you'll find Louis Robert Wilson in the 1927 book when it comes out next March.

John McGraw, after announcing to the wide world during the spring training of the Giants in 1925, that Hack Wilson was the greatest outfielder at bat since the chunky fence buster of the summer in Toledo, Wilson had been ill, and though he had starred in the 1924 world series, and had, on July 1, last, equaled the record of making two home runs in one inning, the Giant's manager didn't want him. Wilson hit for .343 in fifty-five games for Toledo before the Cubs drafted him on a chance.

Now Hack Wilson is the hero of Chicago and one of the leading hitters in the National League. He is at present with the Cubs visiting the Polo Grounds in New York, and attempting to show his former boss what a champ he was to let him go.

BURKE-COOK BOUT STOPPED IN NINTH

CINCINNATI, June 7. (AP)—The scheduled ten-round bout between George Cook of Australia and Martin Burke of New Orleans, heavyweights, here tonight was stopped by the referee in the ninth round. It was announced from the ring that Burke's share of the purse would be held up due to his lack of aggressiveness.

FITZSIMMONS-ROPER BATTLE IS HALTED

BALTIMORE, June 7. (AP)—The scheduled twelve-round bout between Young Bob Fitzsimmons and Tom Roper, heavyweights, was stopped in the sixth round by Referee Buck Alexander tonight, after he had warned the fighters several times against stalling.

DUCKS TO GET PAUL STRAND

PORTLAND (Or.) June 7. (AP)—Paul Strand, outfielder, who was one of the leading hitters of the Pacific Coast League before he was sold by the Salt Lake club to the Philadelphia Athletics, has been purchased by the Portland club of the Coast League from the Columbus (O.) club of the American Association.

### BUNNY RYAN DEFEATED

**Joan Fry of England Takes Measure of Local Player by Scores of 7-5, 3-6, 11-9**

PARIS, June 7. (AP)—America's outstanding contender in the women's competition of the international hard-court tennis championships was eliminated from the fight today by the defeat of Elizabeth Ryan by the youthful English player, Joan Fry, 7-5, 3-6, 11-9. The reserve deprives the California girl of an opportunity to face Suzanne Lenglen in the semi-finals tomorrow.

Both players today gave a wonderful exhibition, but after two sets had been played, a downpour of rain interrupted the match.

When they met for the third set, it was a keen struggle all the way, with Miss Ryan leading, 5 to 3. Then the English girl broke through Miss Ryan's service and made it even. The nine-teenth went to deuce four times, and this Miss Fry answered as she did the twentieth, where she broke through Miss Ryan's service after the game went to deuce, and took the two winning points and the set.

Miss Ryan was the favorite, according to the form sheets. The English girl was the steadiest player that has looked across the net at the center court of the Racquet Club in this tournament. She played a high-class game throughout.

Vincent Richards and Howard Kinsey overhauled Count Ludwig Balm von Rosenstraten and Baron Von Kehring, 6-1, 6-3, 7-5. The Americans led in the last set.

Miss Mary K. Browne, captain of the American women players, paired with Baron Von Kehring, defeated Miss. Dore and Paul Perry, 6-1, 6-3.

The scheduled match between Suzanne Lenglen and Miss Fry was postponed.

(Continued on Page 2, Column 3)

STECHER FORCED TO CONVINCE RUSSIAN DOUBTING THOMASKIS

Europe and America will stage a war on the mat when Ivan Poddubny meets Joe Stecher at the Olympic Auditorium June 18.

Joe Stecher, who is promoting this international championship match, pointed out the fact yesterday that champions from two parts of the world will meet brain and brawn in the encounter and what ever disputes have arisen regarding the real world's championship holder should be settled.

"Ivan the Terrible", Poddubny from the steppes of Russia, reigned for twenty-five years as European champion without once being defeated. The "Man Mountain" still retains the Russian title.

Joe Stecher, hailed as the world's champion, as have been his predecessors who were his crown before him, is an American born and American-made king of the grapplers.

But in Europe they do not recognize Stecher as champion. If the Wehrmacht Stecher King succeeds in winning an impressive victory over the 250-pound Russian, however, they may be made to believe that he is the peer of them all.

(Continued on Page 2, Column 4)

FREDDIE WELSH IS NOW CAPTAIN

(EXCLUSIVE DISPATCH)

NEW YORK, June 7.—From now on Freddie Welsh, former lightweight champion of the world, will be known as Capt. Frederick Welsh of the United States Army. The former champion is stationed at Governor's Island and, with Sgt. Steve Weber, made his first fight over New York yesterday afternoon from Mitchell Field.

Maj. Rose is director of athletics at Mitchell Field and Capt. Freddie Welsh will probably act in the same capacity at Governor's Island.

**Blackley Breaks 80 to Tie With Beckwith and Tom Hodges; Tourney Class Today**  
BY BILL WISE  
H. H. Woodcock, a member of the home club, copped the glory in the annual Wilshire invitational golf tournament with a 76 for first-day low-gross honors, yesterday.

Woodcock, who is a member of the Wilshire Country Club, broke 80 in the first round of the tournament, which is being played at the Wilshire Country Club. He is tied with Beckwith and Tom Hodges. The tournament is being played at the Wilshire Country Club. The tournament is being played at the Wilshire Country Club.

## HOW TROJANS LOOKED AFTER CAPTURING THE SPOILS

This picture of the championship University of Southern California track-and-field team was taken in New York, upon the arrival of the squad in Gotham. The Trojans spent Saturday night in New York, mostly at the Trojans Island track meet. The Southern California athletes were spectators at the affair, the Trojan faculty committee having denied them permission to enter the meet, believing competition would make the outfit a group of "barn stormers." The group above are: Top—Trainer, James Anderson, Morton Kaer, Joe Alex, Cliff Reynolds, Coach Dean Cromwell, Hiram Smith, Capt. Elmer Ed House, Henry Cogswell and Manager Burke Long. Second row—Bill Cook, Alden Rose, Kenneth Grumbles, Capt. "Bud" Houser, Leighton Dye, Ronald Steer and Percy Nierbach. On either side of the trophies are Lee Barnes and Johnny Parsons.

## ATHLETES PREPARING FOR MEET

**Industrial Workers to Show Wares at Coliseum Saturday**  
Many business and industrial workers who are planning to compete in the big track and field meet to be staged at the Coliseum Saturday by the Recreation and Athletic Association of Southern California, are taking advantage of the "after-hour" policy adopted by the playground department and have been registering some excellent times in both the sprints and distances, according to reports received from several physical directors.

**TREASURY GOES ON CASH BASIS**  
June Quarter Debt Reduction Will be \$333,000,000  
Payment to be Met Without New Security Issues  
First Instance of Kind Since World War Days  
WASHINGTON, June 7. (AP)—For the first time since the World War the Treasury will be able this quarter to meet its maturing obligations without offering an issue of new securities.  
Secretary Mellon announced today that "this departure from the usual procedure" has been made possible on account of the increase in income taxes and other receipts over earlier expectations.  
A total of \$333,000,000 in short-term securities fell due on the 15th inst. the end of this quarter, but the Treasury secretary declared this can be met and the government financed until September with the balance now on hand plus the income taxes which will be received this quarter. This means a flat reduction in the public debt at this time of \$333,000,000.  
**BUMPER RECEIPTS REPORTED**  
Bumper receipts in all lines were reported today by Secretary Mellon. Customs collections already are \$100,000,000 above those of last year and \$20,000,000 above estimated collections.  
Despite the recent reduction in income taxes, Mr. Mellon said these receipts also are coming in far above

**FROG FINDS ITS OWN WAY BACK**  
Hops Across Town to Home  
Is Adopted as Proof for Scoffer  
ST. ANGELO (AP), June 7. (AP)—A little green frog some time ago made its home about the front steps of Dr. J. E. Webb's residence here. The frog would be around for days, would disappear, and then turn up again.  
Dr. Webb told one of his friends about the frog, but the friend would not believe that the same frog reappeared. To settle the argument the little hopper was marked, placed in a box and carried to the opposite end of town, where it was turned loose. Two days later the frog was found, with its marking still intact, on the front steps of the Webb home.  
Expectations will be at least a per cent more than was anticipated by the Treasury.  
Internal revenue receipts for the first eleven months of this year are almost \$500,000,000 higher than for this period a year ago. Income tax collections alone have totaled \$1,542,238,000 as compared to \$1,388,385,000 for this period a year ago. No estimates have been made by Treasury officials on the collections for this quarter which will be made on the 15th inst. But it is expected these will reach almost \$500,000,000.

**BACK TAX SWILLS SUM**  
Another item which has swelled the Treasury fund this year, Mr. Mellon said, is a record collection of back taxes which, he explained, was the result of a drive being made by the Federal Revenue Bureau. These collections for this fiscal year already amount to almost \$500,000,000 and by the end of the month the Secretary believes they will be \$100,000,000 more than estimated.  
In March the Treasury retired a little more than \$500,000,000 in outstanding "scrips" and floated a bond issue of \$450,000,000.

**PARTIES CLASH IN DEBATE OVER SURPLUS**  
WASHINGTON, June 7.—Republicans and Democrats disagreed in a Senate debate today as to prospective surplus and likelihood of further tax reductions.  
Senator Smoot, Republican, Utah, chairman of the Senate Finance Committee, doubts if the surplus for the fiscal year 1927, which closes with the present month, will be anywhere near as large as \$250,000,000. He asserted there might be no surplus at all in the fiscal year of 1927. He offered no hope of future tax reductions.  
Senator Simmons, Democrat, North Carolina, ranking minority member of the Finance Committee, declared that the surplus of the current year will be at least \$250,000,000 and is more likely to reach \$500,000,000. He suggested that Congress in the next session might properly retain the surplus to the Treasury. He agreed with Senator Smoot that there will not be sufficient information on which to base a permanent tax reduction in next winter's session of Congress, but gave figures which he said prove to his satisfaction that the surplus in the fiscal year of 1927 will be at least \$750,000,000 to \$1,000,000,000. He ventured the prediction that the surplus will be as much as \$500,000,000, and that these will be no escape from a tax reduction in the session starting in December, 1927.  
Senator Robinson, Democrat, Arkansas, minority leader, predicted that the administration will propose another tax reduction as another election approach, his thought being apparently that this will come in the 1929-30 session in advance of the Presidential campaign.

**PREDICTS CUT PROPOSAL**  
Senator Robinson said that even the conservative figures given by Senator Smoot show that there will be no deficit at any time, notwithstanding predictions along that line made by the Treasury while the 1926 Revenue Act was under consideration.  
Senator Simmons criticized the Treasury plan to apply surplus to the retirement of the public debt. The entire debt, the Senator said, will be wiped out in less than twenty-five years, applying to it only the amount set aside in the existing fund and payments from foreign nations. Surpluses in excess of these amounts, he said, should be used in tax reductions.  
**SMOOT STARTS DISCUSSION**  
Senator Smoot started the discussion by reading a prepared statement commenting upon published assertions that there will be a surplus of from \$250,000,000 to \$500,000,000 at the end of the current fiscal year and that another tax reduction is in prospect during the present term of President Coolidge. While stating that it is impossible at this time to estimate the amount of tax receipts during June, Senator Smoot said that the actual revenue taken in up to June 1 was \$250,000,000 less than predicted in the published statements and intimated on this basis that the surplus might not be much greater than \$100,000,000.  
"Whatever the situation may be as to the fiscal year, 1928, any present estimate as to the fiscal year, 1927, is but a hazardous guess which will not justify any tinkering with the tax law that has so recently been enacted and as to the operation of which the information is so meager and unreliable," said Senator Smoot. "It is absolutely futile to attempt at this time prior to definite knowledge as to the operation of the 1926 Revenue Act, to tinker with the estimate involving the 1927 revenue, which is going to be dependent for half of its year upon the business conditions which prevail for the balance of this calendar year."

**Election Fraud Jury Impaneled in Chicago Quiz**  
CHICAGO, June 7. (AP)—Charged with the duty of investigating alleged election fraud and fraud in the last Republican primary election in Chicago, a special grand jury was impaneled in the Criminal Court today.  
Objecting that a grand jury investigation is a needless expense, inasmuch as the subject already is before the Superior and County courts, Municipal Judge Trude, defeated candidate for county judge, who has demanded a recount, charged that the investigation "will result in another whitewash as in the McGinnis case."

## SCHOOL BONDS SOLD BANKERS

Supervisors Award Two Los Angeles City Issues

Six Investment Syndicates Contest for Liens

Anglo London Paris Group Successful Bidder

Two bond issues, aggregating \$2,212,000 and consisting of \$1,000,000 Los Angeles city school district bonds, and \$1,212,000 Los Angeles high school district bonds, were awarded by the Los Angeles County Board of Supervisors yesterday to a banking group headed by the Anglo London Paris Group for a premium of \$110,000 for the city school bonds and \$110,000 for the high school bonds.

Other members of the successful syndicate are the Bank of Italy, First National Bank of New York City, the Detroit Company, Stephens, Perry & Stacy, Dean Witter & Co., and Hunter, Dunn & Co. A banking group, headed by H. H. Montan & Co., offered a premium of \$110,140 for the high school bonds and \$110,140 for the city school bonds.

This syndicate also included the Harris Trust and Savings Bank, First Securities Company, N.Y., W. H. & Co., William B. Banks Company, Anglo California Trust Company, H. F. Boone & Co., the Security Company, and E. H. Rollins & Co.

Other bidders were California Securities Company, California Company, Mercantile Securities Company, National City Company, J. E. Campbell & Co., Banks, Huntley & Co., and Citizens National Company.

## UTILITY INCOME UP

American Water Works Breaks All Earnings Records

Net earnings of the American Water Works and Electric Company, Inc., for the year ended April 30, last, after reserves for renewals and replacements were \$2,629,536, equivalent to \$4.17 a share on the \$125.125 share of common stock outstanding, as of April 30, last, or \$4.88 a share on the average amount of common stock outstanding during the period.

The figures for gross earnings, gross income and net earnings for the year ended April 30, last, were all new high records.

## IRRIGATION SECURITIES ON MARKET

Bankers Offer Liens for Financing Eschewer Dam of Merced District

An issue of \$1,300,000 Merced Irrigation district 5% per cent bonds, maturing from 1930 to 1935, will be offered today by a syndicate of thirteen California investment banking houses, headed by H. H. Montan & Co., Banks, Huntley & Co., and Shingler, Brown & Co., at par, to yield 8.80 per cent.

The bonds are legal investment for savings banks and trust funds in California; eligible to secure deposits of public funds; and exempt from all Federal, State and local taxes, except the inheritance tax. Final payments on account of the completion of the Eschewer dam and power house, and the relocation of seventeen miles of the Yosemite Valley Railroad will be made out of the proceeds of this issue.

Bankers announce that the entire work in connection with the completion of this hydroelectric-irrigation project will be concluded by July 1, and that the power plant will then be in full operation. The San Joaquin Light and Power Corporation will take the entire power output under contract on a price basis calculated to return the district more than \$500,000 per annum, greatly reducing the amount of debt on the water repayments of the district.

## EX-DIVIDEND DAY SET FOR LASKY COMMON

NEW YORK, June 7. (P)—Transactions in the common stock of Famous Players-Lasky Corporation on the New York Stock Exchange on Wednesday, the 13th inst., will be ex-dividend, the 13th inst. will be ex-dividend, the 13th inst. will be ex-dividend.

May sales of the National Cash Register Company were the greatest in the forty-four years of the company's history, according to a report reaching Los Angeles yesterday. Sales totaled approximately \$4,800,000, exclusive of foreign business, which has not yet been reported.

"This year the National Cash Register Company will exceed in the volume of sales any previous year's record," J. H. Harrington, vice-president and general manager, declared. "We are beginning a new era of industrial advancement."

## EXTRA DIVIDEND ON HUMBLE OIL

Initial Disbursement Also Announced by Shareholders

NEW YORK, June 7. (P)—Humble Oil and Refining today declared an extra dividend of 30 cents a share and the regular quarterly of 3 cents, both payable July 1 to stock of record June 18.

The present declaration is on about 2,916,667 shares outstanding, against 1,750,000 shares to which the \$1.20 rate applied.

NEW YORK, June 7. (P)—An initial dividend of 75 cents a share was declared today on the new stock of Shredded Wheat Company which was split 4 for 1.

Reo Motor Car Company, declared an extra dividend of 1 per cent in addition to the regular quarterly of 3 per cent.

## EDISON CHIEF COMMENTS

Miller Explains Benefits of New York Listing and Large Refunding Operation; Oil Unimportant

BY EARLE E. CROWE  
John B. Miller has performed two notable services for his customers-partners in the last few weeks. And then just to fill the cup to the brim he casually authorized the announcement of a healthy oil well completed on the company's property in Ventura county.

He doesn't attribute the oil developments to his own foresight or genius as a public utility executive nor does he expect the oil to assume any importance in the affairs of the company; it might be called "Miller luck," or something like that. But the first two services are pertinent examples of the managerial ability that has made the Southern California Edison Company the third largest hydroelectric company in the United States.

Mr. Miller has just returned from a trip through the East where he concluded his arrangements for the huge refunding program and the listing of the common stock on the New York Stock Exchange, and incidentally attended the annual convention of the National Electric Light Association, of which he is an officer. His comment on these developments is of particular interest as a summary and analysis of the benefits accruing to the Edison company and its partners.

BORROWING AIDED  
Concerning the listing of the common stock on the New York Stock Exchange, Mr. Miller said yesterday that it is a step that will materially improve the position of the company. A particular motive that prompted him to arrange listing of the stock was the collection of value that Edison common will have in the eyes of the leading officers of any bank in the country.

Mr. Miller said that the listing of the stock will be a step that will materially improve the position of the company. A particular motive that prompted him to arrange listing of the stock was the collection of value that Edison common will have in the eyes of the leading officers of any bank in the country.

As an illustration of the thorough scrutiny given to listing applications by the New York Stock Exchange, Mr. Miller appeared before the listing committee with a complete history of his company and answered a multitude of questions relating to current operations. The application was granted with only a minimum of delay.

STRUCTURE ADJUSTED  
The refunding program arranged by the Edison chief executive with his bankers in the East is the largest ever conducted by a California corporation. Through this operation the company retires about \$3,000,000 of 6 per cent bonds and replaces them with 5 per cent bonds, which represents an important saving, and is testimony of the credit rating of the company and the money market.

As the first move in this direction the company early this year reduced the sale of preferred stock carrying lower dividend rates, and changed the price of the common stock from \$100 to \$25.

Oil developments, as far as the company is concerned, are of minor importance. Mr. Miller said. The year on which the Shell Company is drilling is only about thirty acres in extent, and the one-sixth royalty on all production over 250 barrels may ultimately amount to a 25 per cent interest in the oil.

Better packing and marketing methods and a pronounced demand for canned fruits and vegetables from all sections of the United States are contributing markedly to the prosperity of the farmers of California, according to a statement made yesterday by A. I. Stewart, superintending engineer of the Safety Food Co., the largest chain grocery organization on the Pacific Coast.

"California is today raising from five to ten times more fruit and vegetables than in former years," Mr. Stewart said. "The great forward drive of the French government in the comparative recent years, coupled with an increased demand for canned foods of all character through the chain grocery, has assured the farmer of a constant and ready market for his fruit and vegetable products."

## Growing Canned Food Demand is Aid to Farmers

London Daily Radio

BY ARTHUR W. KIDDY  
LONDON, June 7.—The markets today were occupied chiefly with settlements. Trading was moderately brisk, but activity was confined chiefly to a few speculative developments like Rhodesia Mine and popular industrialists like British-American Tobacco.

France rallied to 158-3-4 to the pound sterling, but the rise was discredited. The French government, however, is probably alarmed at its inability to arrest the fall, and it is reported that a scheme has been formulated for severely restricting imports.

The fact that France's share of this year's German annuity under the Dawes plan amounts to \$3,000,000 in cash, is a windfall for the French treasury. Apparently it had been expected that this payment would be made in goods.

Later in the day the markets became irregular. Investments reacted slightly on the announcement of the Victoria loan of \$3,000,000. India stocks were easier, while oils were active and harder.

## SIGNIFICANT TREND NOTED

Automobile as Article of Necessity Seen in Amazing Increase of Closed Car Models

BY PAUL WILLARD GARRETT  
(EXCLUSIVE DISPATCH)

NEW YORK, June 7.—When one of the country's largest producers of automobile bodies revealed a few days ago that 20 per cent of the cars now put on the market are closed models, it revealed something far more interesting than the statement itself contains.

The phenomenal growth of the automobile industry in this country during the last ten years is not explained entirely by the increased number of car owners. New uses for the automobile have been found and what is even more significant, perhaps, the introduction of the closed model has greatly increased the life of a motor vehicle in this country.

A decade or more ago the average life of a motor vehicle in this country was about five years, but gradually that has been extended through the introduction of improved methods of manufacture until now the average life of a machine is roughly eight years.

The process of switching into the closed model has been a factor in the increased production and the constant demand for new cars from former owners always will be large, but we are coming to a time when over a period the development in the industry will not be as rapid as it has been in the past. In that fact is nothing alarming, however, since the industry now supplies a product that gradually is becoming indispensable to many people.

An inevitable result will be that before long we must modify our figures of seasonal variation.

Anyone that studies the new year book of the National Automobile Chamber of Commerce is likely to be impressed by the romantic rise of the automobile to a position where it rapidly is passing from the luxury class. When the laborer needs a car to carry him to his work, the community needs a car to take him to his train and the householder needs one to facilitate the task of shopping, the automobile as it is used today deserves the name of a necessity.

Our latest figures show that in this country we have a motor vehicle for every six persons.

Son of Tin-Plate King Goes  
in Haste to Titled Wife  
After \$199 Phone Talk

DEL MONTE, June 7. (AP)—William  
H. Leeds of Oyster Bay, son of the  
tin-plate millionaire, after a two-day  
absence, today obtained telephonic con-  
nection with the New York home of his  
wife, Princess Xenia of Greece, and  
left the hotel happy, bound for  
New York.

The conversation is said to have  
been long and the thought that  
he wanted to return to his titled  
wife and was met by some of the  
Leeds' recent dental of rumors that  
a rift had occurred in the Leeds  
household.

Leeds was accompanied by Pres-  
ter and Slade and A. O'Hallahan of Oyster  
Bay. He has just returned from a  
trip to the South Sea Islands.

exchange market.

NEW INDUSTRY  
ADDED TO PORTFirst Whale Oil Importation  
of Size ReceivedWhaling Company Tank Ship  
Brings 688 TonsWill be Turned Into Edible  
Products and Soap

Los Angeles' lengthening industrial  
arms reached out yesterday, and  
brought to another new enterprise,  
the importation of whale oil, which  
will be converted here into edible oils  
and soap products.

It was the first consignment of  
whale oil of importance ever brought  
to port. The shipment, weighing 688  
tons, was delivered to the Vegetable  
Oil Products Company by the Nor-  
wegian tanker, *St. Olav*, which  
arrived here yesterday.

Another shipment of similar size  
will come to the same company early  
in July on the Norwegian tanker  
*St. Olav*.

The oil, which is of the finest  
quality, will be used for the manu-  
facture of soap and for the pro-  
duction of edible oils.

The *St. Olav* is a Norwegian  
tanker, which was built in 1924,  
and is owned by the Norwegian  
Government.

## Real Whole Wheat and then some!

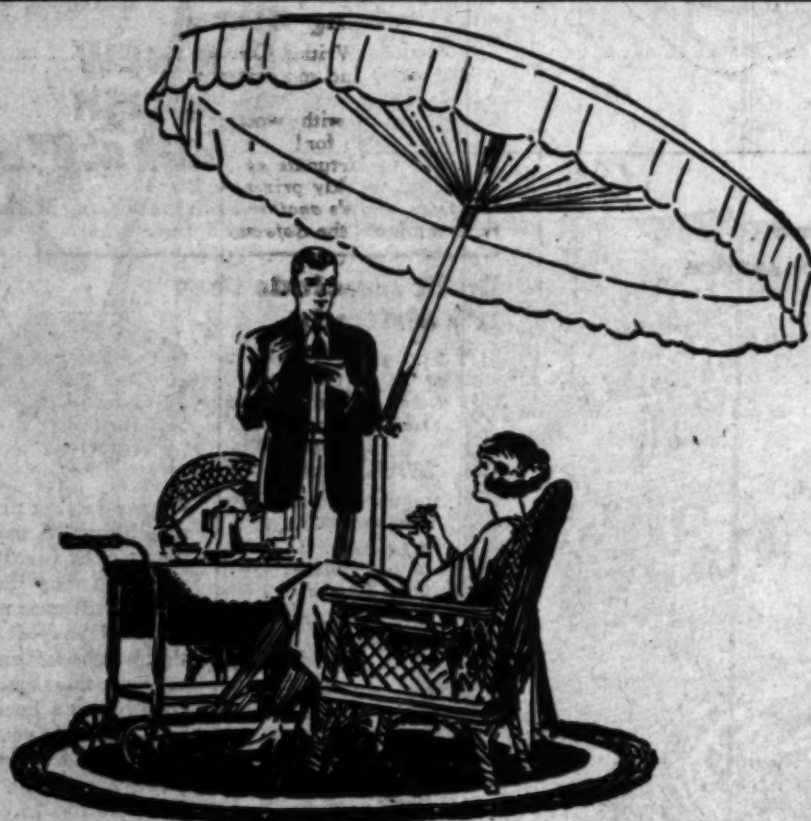

YOU'VE been told to fast—to exercise—to do all sorts of unpleasant things, but now you can let your appetite lead you to health. Mac-Kek-Nee's 99.9, the new whole wheat bread that is whole wheat, has all of the life giving nourishment of sun ripened wheat AND IT'S GOOD!

Think of a whole wheat bread that's made with the finest flour milled (Enright's) — sweetened with pure honey—containing only selected vegetable shortening, and baked in the careful, cleanly Mac-Kek-Nee way. No wonder the public has been so enthusiastic over this tempting, healthful bread.

Don't take our word for it. Try it yourself. Let its fine, delicate appetizing flavor convince you.

As WARMER DAYS COME  
lighten  
your diet  
BUT GIVE YOUR  
BODY ALL THE  
FOOD STRENGTH  
IT NEEDS

More nourishment from less food—full strength without overeating—a satisfying, appetizing breakfast or luncheon in a single good-to-eat dish. That's the Shredded Wheat way to keep your body fit.

Shredded Wheat is whole wheat—Nature's body-building food, perfectly proportioned in vitamins, protein and bran content to give you all the strength of the whole golden grain.

And to add the "taste" and color of Spring—top Shredded Wheat with tender, red-ripe, May-sweet strawberries!

Here's a light diet that gives you all the food you need these warm days—in a single satisfying dish.

## PLANE FAILS TO PLOT FIRE AREA

Word Anxiously Awaited of  
Extent of Conflagration

Heavy Pall of Smoke Blots  
Out Flame-Swept Section

Fighters Sent to Isolated San  
Gabriel District

Information on the Angeles National Forest fire, believed to center in Fish Fork, San Gabriel Canyon, was anxiously awaited last night by the United States Forest Service in Pasadena from the ten men sent into the remote section late yesterday. They are headed by Rangers Blair and Dorr and consist of men from Big Pine County Park.

Forest Supervisor Anderson attempted to survey the fire yesterday by airplane, but fog and forest damp-

**Grand Central  
Public Market**  
Broadway to Hill Street, 1 & 4

ness occasioned by the recent rain in the mountains covered the territory with a dense blanket of smoke that air observation was impossible and he returned to base at Newhall and dispatched the crew. Lookout stations reported that the fire, which is the first of consequence this season, apparently resulted from lightning striking a tree in the territory back of Opita's Camp, where the fire was first seen and reported early yesterday morning or late Sunday night.

Anderson said that the country affected has few trails and is hard to get into, but that once the men arrive in the fire-swept area and aided by the prevailing dampness they probably will make short work of the fire, not now believed to be extensive. The affected area lies in the Sierra Madre Mountains north and east of Pasadena.

THREE BLAZES—  
BELIEVED EXTINGUISHED

(EXCLUSIVE DISPATCH)

CALIFORNIA HOT SPRINGS, June 7.—While direct information has not yet been obtained from all of the eight forest and brush fires burning in the southern end of Sequoia National Forest, under jurisdiction of Forest Supervisor Cunningham, for the past two days, three are declared about out and the others are being practically under control. Rain appears to be falling in that section and if of any consequence will aid materially in extinguishing the flames.

All of these fires were started by lightning but are burning in brush and undergrowth rather than timber, and are now believed practically surrounded by backfires and are expected to soon burn themselves out. A drop of about 10 degrees in temperature and less humidity in the atmosphere has brought relief to the some 100 fighters.

At present the Battlement Creek fire is believed the only one of any consequence. A force of between twenty and thirty men is concentrated there and the area is not believed to have increased much since yesterday afternoon.

Something more than 5000 acres is believed to have been burned over all told. These fires have no connection with Sequoia National Park and are not near any resorts in the Sierra.

RESERVATION FIRE  
BURNS ITSELF OUT

(EXCLUSIVE DISPATCH)

PORTERVILLE, June 7.—An electrical fire started in the sugar-pine timber on the Tule River Indian reservation in the east of here in a storm Saturday afternoon, has now burned itself out, according to telephone communication from the established this afternoon. Approximately eighty acres of grazing land and underbrush in the sugar pine is said to have been burned over. Fortunately grass in the timber was green and the conflagration did not make much headway in spite of the stiff breeze yesterday. Federal Agent Fisher, stationed on the reservation, personally directed the fight.

## FRONK GOES ON TRIAL IN CHECK CASE

Convicted Embezzler Again  
Faces Jury as Aftermath  
of High-Financing Episode

J. E. Fronk, so-called "Pond of Hollywood," who was convicted two weeks ago by a jury in Superior Judge Mahn's court on two charges of embezzlement, yesterday went on trial before Judge Mahn on twenty-two counts of issuing checks without sufficient funds, which involves approximately \$100,000 and seven banks.

Work of choosing the jury was completed at yesterday's court session and testimony will begin today.

Fronk opened his second legal battle since his operations were first exposed, with three motions, all of which were denied by Judge Mahn. Fronk asked for a continuance on the ground that he had changed attorneys and that his new counsel, Attorney James E. Penion, is not familiar enough with the case to proceed for a separate trial from that of Orion J. Ruddy, formerly employed by Fronk and indicted with him, and for his release on bail during the present trial.

The jury is comprised of J. E. Chester, Henry C. Baugert, Mrs. Myrtle M. Wadell, Mrs. Irene O'Connell, C. W. Harrison, Mrs. Elvora Norton, W. H. Kaufman, Mrs. Elsie Courtwright, Mrs. Lillian Brock, Mrs. Mary Rooder, J. E. Kynard, Mrs. Mae Werner and William Hewitt as the alternate juror.

Dep. Dist. Atty. McCartney is prosecuting the case.

NAME CHANGE HEARING SET  
The City Council's City Planning Committee will hold a hearing on the afternoon of the 31st inst., on a proposal to change to Avalon Boulevard the name of both Park avenue and of its extension in Wilmington known as Canal street.

## ATTORNEY IN DIVORCE ACCUSED

Husband Hurls Bombshell  
in Court, Asserting Wife in  
Love With Counsel

"The trouble is my wife's in love with that attorney over there!" Such was the pleasant little bombshell hurled yesterday in Judge Hasett's court by Thomas C. Mitchell at Joseph E. Rust, Kansas City lawyer, in the course of the trial of Mitchell's suit for divorce from Mrs. Lottie Bell Mitchell.

Attorney Rust blinked, and smiled deprecatingly. Mitchell, who is described by his wife as a millionaire Kansas City contractor, but who in-

an Astonishing  
**Blindfold  
Test**

SEE if this doesn't give you the greatest surprise of your whole cooking experience!

Put a little Crisco on the tip of one spoon. On the tip of another place a little of the fat you are now using; have someone blindfold you, and give you first one, then the other fat to taste.

Now, did you ever imagine there could be such a striking difference in the taste of raw cooking fats? Think what a difference Crisco's sweetness and freshness will make in your own cakes, pies, biscuits and fried foods.

## Set Alarms

later now

Breakfast  
cooks in  
3 to 5  
minutes

QUICK QUAKER, hot and enticing, is faster than plain toast. For scores of thousands it is solving the breakfast problem.

The most delicious of breakfasts, it provides an excellent food "balance" of protein, carbohydrates and vitamins—plus the "bulk" to make laxatives less often needed—that authorities have made the dietetic urge of the world.

Less nourishing foods, less delicious foods, simply to save time are a folly. Start now every day with food that "stands by" you through the morning.

Your grocer has Quick Quaker—also Quaker Oats as you have always known them.

**Quick Quaker**

## THE RISE and FALL of the CAKE

causes you great disappointment but you may not have known that thousands of housewives avoid this uncertainty by using "Cream Puff" brand self raising flour for all Cakes, Biscuits, and other baking—it is high grade specially made flour and highest grade leavening, scientifically prepared for your use—thoroughly sifted and aerated by our own process. Forget about baking powder—just use "Cream Puff" and eliminate the guesswork as "Cream Puff" contains exactly the correct amount of leavening needed. Too much baking powder is as bad as too little—causes Cakes, Biscuits and Dumplings to fall, as well as taste bitter. You cannot hope to guess right every time so use "Cream Puff" and be certain. The Big Green package—3 lb. size 30 cents and smaller packages 17 cents.

Service Bros., Los Angeles

## Wife Freed on Doubt Cast by Husband's Tale

Courtney L. Wagoner did not say he had been sitting up with a sick friend. Instead, according to his wife, Ruth E. Wagoner, in Judge Oates' court yesterday, he explained his early morning arrival with a tale about having to sober up a few drinks of his acquaintance.

"But he didn't say a word about being out to a dance with another woman, and a girl friend of mine told me she had seen him at the dance," Mrs. Wagoner continued. Judge Oates agreed with Mrs. Wagoner that this lapse cast a lot of doubt upon Wagoner's whole narrative and made it look as if he had been cruelly associating with some other girl. So he awarded a decree of divorce.

## PRACTICAL RECIPES

Helps for Epicures and All Who Appreciate Good Cooking

**CHERRY SANDWICHES**  
Cut fine, using a silver knife, half a cupful of Maraschino cherries, and add one-fourth of a cupful of Jordan almonds with a small amount of heavy cream and spread between heart-shaped pieces of buttered bread. Remove a small round piece of bread from each top slice and into the space thus made fit a quarter-section of cherry.

**CHEESE SQUARES**  
E. D. K. Hollywood: Slice bread thin and shape into small squares. Both graham and rye bread are good, or white bread may be used. Spread thinly with creamed butter and then with cottage or cream cheese moistened with a little cream and seasoned with salt. Sprinkle paprika over it and in the center place half of a small gherkin pickle cut lengthwise, with cut side down. The gherkin should be only one and one-half inches in length.

**PIQUANT SANDWICHES**  
Chop fine two tablespoonfuls each of chives, gherkins and olives and one teaspoonful of capers. Mix two teaspoonfuls each of ketchup, vinegar and lemon juice, one teaspoonful each of French mustard and paprika. Combine mixture and add slowly to four tablespoonfuls of

creamed butter. Use between slices of buttered bread.

**CHERRY SANDWICHES**  
Cut fine, using a silver knife, half a cupful of Maraschino cherries, and add one-fourth of a cupful of Jordan almonds with a small amount of heavy cream and spread between heart-shaped pieces of buttered bread. Remove a small round piece of bread from each top slice and into the space thus made fit a quarter-section of cherry.

**CHEESE DELIGHT**  
Chop two tablespoonfuls each of Canton ginger and English walnuts. Add these to one-half of a small cream cheese moistened with two tablespoonfuls of heavy cream. Season with salt and paprika and use as a filling.

**CHEESE CAKE**  
A. H. H. Los Angeles: For the cheese cake, dissolve one cake of yeast in half a cupful of lukewarm milk and pour into a bowl; mix this with one cupful sifted flour sifted with one teaspoonful of sugar and one-quarter of a teaspoonful of salt; place in a warm place and let rise for two hours.

When the mixture is well risen beat to a cream three-quarters of a cupful of butter and one cupful of sugar beat in three well-beaten eggs and mix to smooth dough with five cupfuls of sifted flour sifted with one teaspoonful of salt; all one cupful of milk and the yeast mixture. Work well with a spoon for ten minutes and let rise until light, about four hours.  
Rub one and a half cupfuls of dry cottage cheese through a sieve and mix smooth with four tablespoonfuls of creamed butter; beat into this slowly half a cupful of sugar, the well-beaten yolks of three eggs, one-quarter of a teaspoonful of salt, one teaspoonful of grated lemon rind and two-thirds of a cupful of seedless raisins.  
Wet a deep baking dish heavily, roll out the dough in a thin sheet and line the baking dish with it; let the mixture rise for ten minutes, then brush with egg white and the cheese mixture, pour into the dough-lined pan and bake until firm in the center.

**CHEESE TORTE**  
Beat to a cream one and half cupfuls of butter and one and a half cupfuls of sifted sugar, and when the mixture is light and creamy beat eight eggs, one at a time, and beat well after the addition of each egg add the strained juice and grate of one lemon, beat well, add one and a half pounds of cottage cheese that has been pressed through a sieve, one cupful of cream and four tablespoonfuls of flour; beat well and pour into a spring form lined with a thin layer of pie pastry. Set in a moderate oven and bake until set.

**ORANGE ICE CREAM**  
Juice of three oranges and two lemons. Squeeze with two cupfuls of granulated sugar add one quart of sweet cream. Freeze as for ice cream. This will make two quarts when frozen.

**APRICOT MARMALADE**  
F. D. F. Los Angeles: For the apricot marmalade wipe and cut six pounds of sound apricots in half and remove the seeds. Cut in pieces, add six pounds of dry sugar and cook slowly for two hours; add strained juice of two lemons. Place in clean jelly glasses and cover with hot paraffin.

Wipe and cut four pounds of apricots in halves. Remove the stones, cut the apricots in small pieces. Add four pounds of hot sugar and cook slowly for two hours, add the juice of two lemons. Put into jelly glasses and cover.

**CURRENT JELLY**  
Select sound ripe currants. Carefully wash and drain thoroughly. Remove stems and imperfect fruit. Put in a preserving kettle, crush a few at the bottom, then set over a slow fire and cook slowly until just tender. Stir occasionally with a wooden spoon to cook evenly. Pour in a jelly bag and let drip, squeezing or squeezing as necessary. Collect and measure the juice and reheat in preserving kettle. Boil a few minutes, steadily skimming off scum as it appears, then add to each pint of juice one pound of sugar. Stir until sugar is dissolved and boil in a shallow kettle over a quick fire until a jellifying test can be obtained. Remove at once, let partly cool, then pour into glasses and skim. Set in a dry place free of dust and insects and cool overnight. Cover with melted paraffin and store in a cold, dry, dark place.

If red and white currants are used in equal proportions a light-colored jelly will result.

**BAR LE DUC CURRENT JELLY**  
For each pound of first choice of large white or red currants prepared as directed in the following recipe, take one pint of strained honey and bring to a boil. Add the fruit and let simmer a few minutes, very slowly, use a skimmer. Lift the fruit out, then arrange in a bowl. Boil the honey left in kettle until thick and pour it carefully over the currants. Pack and store same as other jelly, filling dry tumblers in two or three operations to prevent the fruit rising to the top.

**SPICED PLUMS**  
Wipe five pounds of plums with a piece of cheesecloth wrung out of cold water, and prick each five or six times, using a large needle. Put two and one-half pounds of brown sugar in a sauce pan and pour over one quart of vinegar; then add two ounces of cloves, one ounce of stick cinnamon broken into pieces, one ounce of allspice berries and one ounce of mace (all tied in a piece of muslin). Bring mixture to the boiling point and let boil ten minutes. Pour over plums, cover and let stand overnight. In the morning drain plums from syrup again, bring syrup to the boiling point, let boil ten minutes and pour over the plums. Cover and let stand overnight, drain and repeat the process a third time.

**PLUM JELLY**  
Put the plums into the preserving kettle with water to cover. Cook slowly until the plums will mash readily, then turn into a jelly bag and drip until pulp is dry. Boil the juice rapidly twenty minutes, skim well, remove from fire and measure. Let come to a boil again and add as many cupfuls of sugar as you had juice. Let boil until it jellies, which will be fifteen to twenty minutes. Pour into glasses and when cool cover and put in a cool dry place.

**PLUM JAM**  
Wash and halve the plums, but do not remove the stones. Add enough water to barely cover and cook slowly, mashing with a wire potato masher several times. When the fruit is soft and the stones have fallen out set aside and stand until cool. Re-

move the stones, which will have come to the top. Add pound for pound of sugar to the fruit and juice and cook until thick. If a plum butter or marmalade is desired put through a sieve and reheat before canning.

## COUNCIL WILL HEAR VAN NUYS PROTEST

Residents of the Van Nuys district are expected to appear in large numbers at this morning's meeting of the City Council to protest against the adoption of an ordinance changing the name of Sherman Way in that section of the city to Van Nuys Boulevard. The Council has before it a property owners' petition signed by owners of 74 per cent of the frontage on Sherman Way asking that this name be retained.

## WEST SEVENTH-STREET GRADE UP TOMORROW

The final ordination for the improvement of West Seventh street from Figueroa street to Lucas street by cutting down the hill on Seventh street in this section is expected to be presented to the City Council tomorrow morning for adoption. Protests against the improvement have been denied by the Council. The grade of West Seventh street in this section is between 4 per cent and 12 per cent. The new grade will be 1.27 per cent.

## Lightly-Clad Suspect Free to Don Pants

H. O. Parks was released on bail yesterday pending a hearing in Municipal Judge Russell's court on a speeding charge, and, according to Warrant Officer Weir and Bailiff Brunette, he can go for a walk properly clad now.

Parks had failed to appear in court and the officers went to pay him a night call at his home at the Wade Apartments, Eleventh and Grand, they reported yesterday. Weir went in while Brunette sat in the automobile.

As Wade entered, it was related, a window opened and Brunette saw a white figure draped itself over the sill. Brunette walked over, and, twirling a revolver, asked the figure where it was going.

The figure resolved itself into a man in a union suit with a pair of trousers over his arm.

"I was going for a little walk," he said, "but I don't think I'll go now."

Parks, the officers reported, accompanied them instead.

**WANT STREET EXTENDED**  
The opening and extending of Chardall street from Park View street to Third street was requested of the City Council yesterday in a petition received from property owners.

## Maid of the Wheat Health Bread

creates appetites, aids digestion

Its flavor gives a zest to lazy appetites and aids the assimilation of other foods. Because of this, Maid of the Wheat Health Bread has won the endorsement of more than 75 prominent Los Angeles Physicians. Made of 100% Wholewheat flour ground fine to our own formula, filtered water, yeast, milk, salt, vegetable shortening and honey.

## Ad Writing Contest

The Zain Ad Writing Contest is getting more and more interesting. Lots of fun, with worthwhile prizes to strive for! If you're so fortunate as to win one of the weekly prizes of \$50 in money, there's another \$50 if the winning ad has as its subject—the Safeway Stores.

## Don't conclude that it's difficult

Don't start out with the idea that it's difficult, or that it must be a literary gem. Visit your Safeway and get a copy of the Zain rules. Then dig up the facts. Ask questions. Get your own slant of this great business, especially of its value to the consumer and to the community.

From the information gained build your story—your advertisement; let it be simply told and let it convey your thoughts in as brief a form as possible.

## A few Prize-Winning ads.

We reproduce here a few that have won minor prizes; some are indeed excellent.

"Mrs. Housewife has worn a pathway to the doors of the Safeway Stores. Confidence has walked by her side. Economy and Quality have been the guideposts."  
(By Mrs. R. C. Deming, Los Angeles.)

"If all the Safeway Stores were in one Colossal Building, it might impress you more, but the neighborhood service they offer in every neighborhood would be gone. The same economies made possible by tremendous volume is reflected in the prices at these stores in every district. And it isn't just price that makes Safeway pre-eminent; it's an organization of men who know that Quality is what makes the Big Hit."  
(By H. L. Williams, Los Angeles.)

"Do you think you can budget my wages so meager," said the earnest young groom to the bride.

"It's already solved and the Safeway has done it for all thrifty young folks," she replied.

(By Mrs. Arthur C. Moses, Beverly)

## Have a look at this broom special

Five rows sewn; sturdy, well built; clean, straight broom straw.

The facts are that, due to unfavorable weather, the Oklahoma crop of broom straw fell far short, and the price has shot up to war prices. Which makes this special—the good broom at 48c—all the more remarkable.

# BUILDING TO BEGIN IN FALL

Great \$1,500,000 Main Structure, Like Concourse, to be Last Word in Completeness

Detailed working plans for the main building of The Gables, are far enough advanced, it has been announced by Curlett & Beelman, that construction will require 900 months, permitting its completion in sufficient time for use by next summer.

The main building, like the Concourse, will be old English in design. The main building will be topped by a tower extending far above the Palisades.

The structure is being so designed that practically every feature such as the numerous lounges and dining-rooms, the private apartments, ball-rooms, etc., will include their own outside terraces.

The architects have provided for 140 apartments. There are to be sixty single apartments, fifty doubles and thirty of three rooms. The apartments all will be finished and furnished as the most exclusive in Los Angeles.

Among the other features planned are a ballroom with terrace, which will be one of the most beautifully appointed rooms in the entire club. The main dining-room will be similar in decoration and magnitude. There will be ten private dining-rooms and a private dining-room for ladies. There will be the main lounge, library and ladies' private lounge. A beauty parlor, a Turkish bath with women attendants and numerous other features are designed.

**COMFORT FOR MEN**  
For the men there will be a grill, stock tickers and telegraph service.

**Congratulations**

## SLATE ROOFING ATTRACTIVE

Material Brought from Vermont Mountains Through Canal

The slate roof of The Gables Club Concourse constitutes one of the most beautiful of the many decorative features of the building. The slate is of varied hues and came from the Green Mountain district of Vermont.

It's beauty lies partly in the surface texture and color, but principally in the method of installation.

Only six weeks elapsed from the time the order was placed until the roof was completed. The material was shipped from the quarry to New York, thence by water through the Panama Canal to Los Angeles Harbor, trucked to the job and installed.

The Concourse, costing approximately \$250,000 is the result of the vision of Mr. Cohen and his determination to give Southern California more than just a beach club.

The features included in the Concourse are a commodious clubroom, with a large fireplace at one end, where dancing will be enjoyed. The main building includes the kitchen, which is the last word in design and equipment.

The women's individual dressing-rooms are on the main floor. These rooms each include a shower, hair dryer and coiffing room.

Perhaps the most attractive feature of the Concourse is the broad terrace extending the entire length of the building.

The terrace and private beach are protected by wind wings, which extend to the water's edge. The beach itself includes a private playground for the children which will be under the supervision of an attendant.

There are courts for beach games and a life guard tower will be installed at all times during swimming hours. Life lines, a raft and a guard's dory also are included in the beach equipment.

Beautiful flood lights located on the tower and on the building will light the structure and the beach.

The furnishings, the designs and patterns are manufactured especially for the Concourse, and will be the most beautiful ever furnished a Southland public institution.

**Hostess Chosen for Ability to Arrange Events**

The functions of the hostess in a social club are of paramount importance, according to officials of the Gables Club. Especially in the opening of a new club it is necessary that this role be undertaken by one who is thoroughly familiar with her duties and one whose experience has proved unusual capabilities in that direction.

Miss Helen Welton is well known in Southern California, having served several clubs as hostess, among them being the Jonathan Club and the Racine Country Club.

Upon Miss Welton's shoulders will fall the responsibility of caring for the various entertainments that will be provided from time to time, of arranging for parties, teas, etc., and to generally superintend the promotion of friendly fellowship among members.

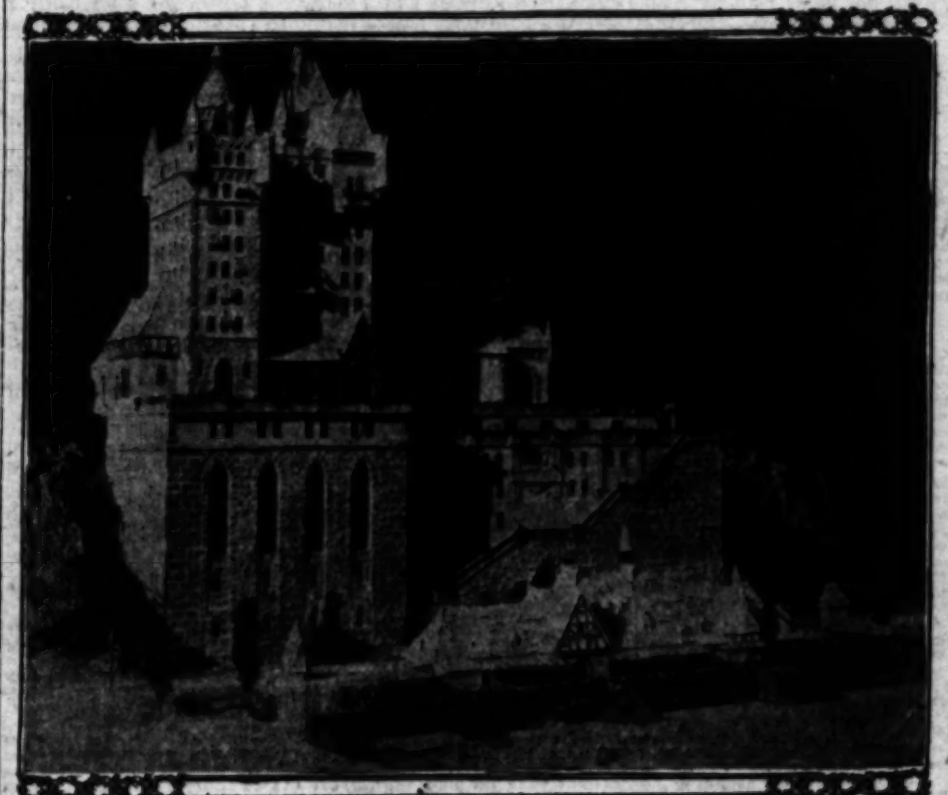

**SERVICE DEPARTMENT FIXTURES IN OAK**

The furniture and fixtures for the service department of The Gables Club Concourse were furnished by the Commercial Fixture Company.

This furniture consists of round and rectangular dining tables, service stands, tray stands, buffet, soda fountain service counter and back bar, cigar case and trophy cases. The soda fountain is mechanically refrigerated and carries the special rotary feature which provides a large and readily accessible ice-cream capacity in a comparatively small space. The showcases and trophy cases are done in oak and the latter is particularly massive and of excellent design.

## MAGNITUDE OF BEACH CLUB DEPICTED

Miniature Declared Fine Example of Modeler's Art

Imposing Structure to be Erected at Shore

**A MODEL of The Gables Beach Club, showing the main building and the beach Concourse, complete with the Palisades Park, streets, automobile drives, trees and landscaping has just been completed and is on exhibition in the seventh and Figueroa corner window of Barker Brothers' store.**

The work is that of Alfred Weidner and is produced by authorities on miniature work to be one of the finest examples of Mr. Weidner's art ever turned out in Southern California. The model, together with the glass case, cost \$5000. The model will enable club members to visualize the magnitude and beauty of The Gables as it will appear when completed.

**RARE SITE WILL HOLD NEW CLUB**

Gables to Occupy Only Private Tract in Strip of Palisades

In 1898, Senator Jones and Col. Baker of Santa Monica decided to the city a strip of land along the Palisades bluff more than a mile in length, the northern limit being known as Montana Hole. In 1908 the Santa Monica Land Company interests made a similar deed to the city, extending this stretch of land to a strip of almost two miles in length.

Excluded from these gifts, Montana Hole remained private property, the only portion of this two miles of verdant beauty remaining under private ownership.

It is this particular piece of property that is to be utilized as the site of The Gables, Palisades Beach Club. This site is one that can never be duplicated. The gabled towers of this club are destined to become a monument to Southern California.

The main entrance to the club will be from Ocean Avenue. An underground tunnel will connect the main club building with the concourse.

**PARKING FACILITIES PROVIDED**

Parking facilities on club property adjacent to The Gables Club Concourse will accommodate 250 automobiles. The Gables park is reached easily. It will eliminate the disagreeable feature met in the past by those who have been accustomed to using the beach of parking several blocks away and then walking to the beach. The Gables park is less than fifty feet from the Concourse.

**BEACH CLUB COMMITTEE ANNOUNCED**

Membership Group Not Financially Interested in Organization

None of the members of the membership committee of The Gables Club is interested financially in the club.

The committee follows: J. B. Arthur, manager fuel oil department, Union Oil Company; Clarence Barker, vice-president, Barker Brothers; H. A. Bell, vice-president Pacific Southwest Trust and Savings Bank; Ernest Belcher, Belcher School of Dancing; Dr. Elmer Le Roy Biggs, physician; Carl A. Bundy, president, Carl A. Bundy Quill and Press, Sim W. Crabb, manager, Times-Mirror Company; George E. Cryer, Mayor, City of Los Angeles; H. O. Davis, former director-general, San Diego Exposition; H. J. Engelbrecht, vice-president, California Bank, Santa Monica; Frederick H. Fetschman, president, Los Angeles Book Company; H. O. Fausch, vice-president, Santa Monica Land Company; J. W. Fowler, president, Fowler Brothers; Lindsey Quill, Santa Monica Land and Water Company; Perry H. D. Greer, president, Greer-Robbins Company; Robert Marsh, president, Robert Marsh Company; C. L. McPaul, assistant traffic passenger agent, Southern Pacific Lines; Robert A. Odell, president, Board of Education; J. C. Owens, vice-president, Owens-Parks Lumber Company; A. St. G. Perry, president, American Sign Company; David Perry Ricker, promotion manager, Los Angeles Examiner; Carl F. Schader, capitalist, Santa Monica; C. Fred Thompson, president, C. Fred Thompson Tire Company; Sylvester L. Weaver, president, Weaver Roofing Company; H. B. Woodill, president, Safety Electric Products Company; James Woods, vice-president, Los Angeles Biltmore, and E. C. Tourill, merchandise manager, J. W. Robinson Company.

**SURETY BOND WRITTEN BY ROSEN COMPANY**

The bond which guaranteed the completion of the Concourse of The Gables according to plans and specifications as drawn by Curlett and Beelman, the architects, was written by L. P. Rosen & Co. The bond guar-

anteed completion of the structure free and clear of liens and indebtedness, thereby insuring the project unimpaired by any mechanic's liens or claims for materials furnished.

## CLUB REALIZES BUILDERS' IDEAL

J. Ward Cohen Given Credit for Achievement

Personally Supervised All Construction Details

Plans for Main Unit Now Near Completion

When the members of The Gables first inspected the magnificent appointments of the Concourse and enjoy the numerous conveniences it has to offer, they will marvel at the completeness of the structure and feel proud of their membership. But little will they realize the hours of tedious work and the vast amount of detailed thought which were responsible for the building of the club.

J. Ward Cohen, the organizer of The Gables, is the one great motivating influence which has been responsible for the finest beach club in America. Mr. Cohen long cherished a desire to construct such a beach club, but realized that a perfect site was necessary as a setting for an institution such as he had in mind.

After many weeks of steady search the present Gables site was discovered. Then followed more hours of work with the architect. After the country had been combed for the most modern details of club design, the Concourse was born. Mr. Cohen's work had just begun. He personally selected the various fabrics used in the drapes, supervised the designing of the furniture and, above all, insisted that no expense be spared to produce the finest examples of work possible.

The Concourse today speaks for his thoroughness and yet his work is far from finished. Detailed plans for the main building are nearing completion. Construction is scheduled to commence October 15. And if the finishing and furnishing of the Concourse was a big job—the same work with the main building will be colossal.

## GABLES CLUB WATER SYSTEM IMPORTANT

One of the important refinements of the Gables Club concourse is the water system. Hard water causes many inconveniences and much personal discomfort, when furnished as it comes directly from the city supply.

It forms scum and curd for bath and lavatory purposes, makes linens and fabrics harsh to the touch and displeasing to the eye, irritates the skin and detracts from the flavor of the kitchen.

The water which will be furnished the Gables Club members will be filtered and softened, resulting at all times in a perfectly clear, sparkling and healthful water, absolutely devoid of all hardness.

## RECORD TIME MADE ON PROMANADE JOB

From a barren, wave-washed stretch of sand on March 10 to a completed structure on June 10, is the record made by A. T. Cummins, contractor on the new promenade building for The Gables Club on the beach at Santa Monica. More than 100,000 feet of lumber was incorporated in the structure in four weeks. A ten-foot reinforced concrete arched tunnel was built in fifteen days; despite waves, high-tides, storms and burning water lines. Through high pressure construction and by working crews of men ten, twelve and fourteen, and at times twenty-four hours a day, Mr. Cummins was able to turn over the completed structure almost a month earlier than originally planned.

## GABLES OBTAINS REAL EXECUTIVE

Morgan S. Tyler Successful for Thirteen Years

Manager Began Career at Alexandria Here

Wins Reputation in Chicago and Other Places

With the erection of the finest beach club in the country secured the management was anxious to see it operated in a manner befitting such a club. After searching about the United States for the best man obtainable for the management of the Gables, Morgan S. Tyler, Chicago hotel executive, who has a national reputation for the successful operation of hotels, was selected.

Tyler has been in Los Angeles for several months and has painstakingly selected his staff, engaging his employees only after rigid examination. As a result Tyler has a staff second to none. He himself is an expert in the matter of food, insuring that this phase of the service will be faultless, as was every other phase of the management. Tyler started in the hotel business thirteen years ago at the Alexandria in Los Angeles. Later he was manager of the Tourer at Shreveport, La., was chief steward and purchasing agent for the Lott Hotel Company of Chicago which operated the Parkway, Webster and Linden and also served as steward and purchasing agent of the Adolphus at Dallas, Tex. During the war Tyler served in a similar capacity in the United States Transport Service. He, likewise, has occupied a similar role with the Pacific Mail Steamship Company.

## Dining Service and Kitchen of Latest Design

In outfitting the kitchen and dining service of the Gables Club Concourse, special effort was made to obtain the best quality and latest design for all equipment. Parmelee-Dohrmann Company supplied all of the needed materials. The service of china has an exclusive club design for all equipment. Parmelee-Dohrmann supplied all of the needed materials. The service of china has an exclusive club design for all equipment. Parmelee-Dohrmann supplied all of the needed materials.

The Concourse will have two Humphrey Rotomaster broilers. These are the newest machines to broil meat. There also is a Perfection dishwasher, which is capable of washing 4000 pieces of china per hour.

A battery of Garland ranges and a large, all-white enamel Lagonier refrigerator efficiently will be doing their duty, though they will not be seen by the members. The kitchen equipment, such as shelves, warming tables, stock tables, giant bonds for over the ranges, are all made of the famous Monel metal, trimmed in polished nickel.

## Club's Insignia Spelled Out in Letters of Fire

Surmounting the roof of the Concourse is an insignia of The Gables. In Gothic letters the name "Gables" is spelled in letters of fire. The startling insignia is obtained without the use of an electric globe. Needle tubing has been bent in the form of the letters. Needle tubing is the latest thing in electric lighting. Glass tubing is evacuated and then filled with an inert gas such as neon or helium. By the means of coils and transformers a high-tension current is introduced into the tube which lights it with a brilliant and far-reaching light. The capitals are blue, while the remaining letters are red. The insignia has the appearance of a living jewel. It was designed and installed by Neale, Inc.

# "The Gables" on the Palisades

**A** GAIN, Barker Bros. achieve a remarkable commission in the furnishing of this splendid club concourse—the first unit of "The Gables-on-the-Palisades,"—now completed and open for this summer's sports.

To describe the many rare features of luxury, beauty and convenience which are to be incorporated in the main club house and its furnishing scheme (also to be executed by Barker Bros.) would be premature. Suffice it to say that "The Gables-on-the-Palisades" will be a wonder of modern clubdom. The Concourse, now open, is an utterly unique, charming place with its spacious hall, great, hospitable lounge with enormous fireplace, splendidly equipped locker rooms for men and women, women's drawing room, and the magnificent terrace a riot of color with gaily colored couch hammocks and brilliant furniture.

The importance of the commission to provide suitable furnishings for this superb edifice has been keenly appreciated by this firm; no effort in research or resources has been spared in the carrying out of very unusual plans; the result, we believe, is worthy of the pride we feel in a really significant achievement!

Further to favor and enrich the Parrot-Crier advertisement were taken yesterday placing in the hands of the Board of Public Works the insuring of municipal property. Among friends who have already profited by this means are J. J. Grant, manager of Mayor Grant's campaign, and Harry E. who was given a pile on the

[illegible]

will give the insurance on City Hall and contents of the building. The insurance policy will be placed in the name of the friends of the city.

The following facts were discovered by an examination of the records of the police department:

The records show that Police Inspector Inley was the agent for the insurance policy placed on City Hall building on West Broadway.

The records also show the agent for the police placed on the Yacht Club of the city engineering department where street-maintenance work is done.

Mayor, as a member of the City Board of Arnold & Insley, has a lease policy on the City Hall building at Lee Square, a \$1000 policy on the new Henderson at Union, a \$1000 policy on the city garage on corner between Hill street and Second, and a \$1000 policy on an apartment building property in East. Mayor has been given authority on city-owned buildings for a lease policy for \$11,000, a \$1000 lease for the \$11,000, and the new building, the Second and White will have no control in the location placed on property in the harbor, or on property in the harbor, library and playground, as these are under the control of the city and the city control their property.

*Peter the Great Wounded by Bullet as Master and Canine-Breeder Quarrel*

Peter the Great, the \$74,000 film dog, may lose his life as a result of an altercation between his master, Ed Faust, and Fred R. Cyrick, wealthy Lankershim dog breeder, Sunday night, it was disclosed yesterday.

The dog, with a bullet wound through his neck just below the jaw, was reported to have an even chance for life last night at the veterinary hospital in Hollywood to which he was taken. Absolutely no word was forthcoming from the hospital late yesterday, however, as to the dog's condition adds from the statement that the canine film hero was alive.

The dog was shot, according to Lankershim police, in a battle at Cyrick's home at Whipple street and Lankershim boulevard, Lankershim. Faust, Ray Richardson and another companion, it was stated, called at the Cyrick's place and engaged Cyrick in an argument. Faust threatened to take any action in the case unless a complaint was forthcoming. None had been filed up to a late hour yesterday.

In litigation last year between Faust and his brother, Alvin Faust, the dog's value was set at \$74,000. The suit was finally settled out of court, however.

**Mexican Party of Thirty-five to be Deported**  
*Thirty-five Mexicans, alien guests from Southern California during the last six weeks, will be deported to Manzanillo aboard the Panama Mail steamer Venezuela today at 9 p.m., according to a report made yesterday by Walter E. Carr, United States immigration director for the Southern District of California.*

Immigration Inspector Metts is in charge of the regular bi-monthly deportation of these alien women and children in the execution, the majority of whom become dependent upon Los Angeles city for support.

**LIFE LONG LIST OF LITIGATIONS**  
*Judge Hazlett Seeks to Check Ever-Increasing Flow of Mechanics' Actions in Court with Set of "Don'ts."*  
*Urges Builders to Use Surety Bond Guarantees*

Life is just one mechanic's lien after another for Judge Hazlett of Superior Court.

Judge Hazlett, who presided over the mechanic's lien department at the courthouse, has pronounced a set of "don'ts" in an effort to stop the ever-increasing flow of lien cases in Superior Court. Figures show that approximately one-third of the general litigation on the records of Superior Court consists of mechanic's liens, most of which could have been kept out of court if builders and contractors had made proper provision to safeguard themselves, Judge Hazlett stated.

**GIVE "DON'TS"**  
*Some of Judge Hazlett's "don'ts" follow:*  
"Don't erect any kind of a building until you know just exactly how you want it to appear when it is finished."  
"Don't insure against fire, theft and burglary in plans during building operations frequently resulting in liens and breach of contract suits."

**SHE'LL BE PRIVATE AS A GOLDFISH**  
*Screen Actress Will Take Up Abode for Week in Broadway Store Window and at Current Glass Prices There'll Be No Stones Tossed*

Edna Kirby, who lives in glass houses for a living, arrived in Los Angeles yesterday to take up residence in a luxurious ground-floor apartment facing Broadway just off Fourth street.

The apartment commands a fine and unobstructed view of Broadway. It is somewhat lacking in privacy for the apartment is located in the window display of a store. The rent is \$100 a month. Kirby, who is well known in the city, is taking up residence in the apartment for a week, after which she intends to retire for some time to a hotel as a paying guest. To keep out callers who might desire a glimpse of the actress, Kirby has had the window display of the store in which she is living erected by the store in front of the apartment.

Mrs. Kirby has been living in glass houses off and on for three and half years and has learned not to throw stones. She reads the lips of the curious crowds who assemble about her place of residence, she said, and is often tempted to hurl a few squibs at some of her admirers. But she can't do that. Kirby said she can't do that. Kirby said she can't do that.

**LOYALTY TO CHAMBER TOLD**  
*Speakers Rejoice in Success of Promotion Week; Cumulative Effects of Drive Foreseen*

That Chamber of Commerce week, which closed yesterday, will go down in Los Angeles history as one of the greatest demonstration ever staged here of the loyalty of the citizens to their Chamber of Commerce was the gist of the comments on the subject by chamber officials yesterday following the noon luncheon in the chamber dining-room which was the closing approximately \$8000.

The primary object of the week was to spread information about the Chamber of Commerce and its activities among the public, said A. G. Arnold, secretary of the chamber. "It has accomplished that object far in excess of the anticipations of the promoters of the week."

"This campaign has served once more to demonstrate that the people of Los Angeles know the problems that confront a rapidly growing city like this and appreciate and support, probably more than any other community in the United States, the great organization which constitutes its driving force. This was shown by the enthusiastic manner in which the business men and institutions of the city that constitute its backbone co-operated in making this week a success."

**FIGURES BEING COMPILED**  
*"Concrete data are not as yet available on the increase in membership of the chamber resulting from the campaign. Several departments are now busily engaged in compiling these figures. The campaign will be cumulative in its effect and the next several weeks results of the work initiated during Chamber of Commerce week will be coming in."*

**ELECTRICIANS MEET TODAY**  
*More Than 600 Delegates Here for Convention of Pacific Coast Electrical Association*

With more than 600 delegates in attendance from all parts of California, Nevada and Arizona, the fourth annual convention of the Pacific Coast Electrical Association will conduct its first session today at the Biltmore.

The delegates began to arrive yesterday morning, the largest delegation coming by special train from San Francisco, the organization's headquarters. Registrations numbered well over 600 last night, with good prospects that the attendance will reach 700 with the addition of related delegations reaching Los Angeles this morning.

**BRANCHES INCLUDED**  
*The association, which is the Pacific Coast division of the National Electric Light Association, is composed of electric power and light companies, and includes the heads and executives of these companies as well as members of their technical staffs, and jobbers, manufacturers, contractors and dealers in electrical supplies.*

The convention will be called to order at 10 o'clock this morning by the president, William Beatty of San Francisco. The morning program includes an address of welcome by Mayor Cyster, report of the president and reports of various other officers. At noon the delegates will be entertained by the Los Angeles Electric Club at a luncheon at the Biltmore. Samuel E. Gates, the president of that organization, presiding.

**RECEPTION FOR OFFICERS**  
*The afternoon session will resolve itself into a series of meetings of the various sections composing the organization, the sections being designated as the technical, the commercial, the advertising, the accounting, the purchasing and the transportation. The day's convention activities will close with a reception to the executive officers at the Biltmore, followed by dancing.*

Tomorrow's program calls for a general session in the morning, where several subjects of general interest will be discussed, followed by a continuation of the section meetings in the afternoon.

**Four Speeders Sent to Jail; Hundred Fined**  
*Four jail sentences on speeding charges were imposed by Municipal Judge Chambers yesterday.*

Jim Hansen, 6000 Hollywood boulevard, was sentenced to serve four days; A. E. Dickinson, 1214 W. Twenty-second street, two days; and William Kleinman, 679 South Westmoreland avenue, and Howard G. Lowe, 1515 Fifth avenue, one day each.

About 100 other motorists were small fines.

**FIFTY RELATIVES AT WEDDING CELEBRATION**  
*With fifty relatives, including eight children, thirteen grandchildren and three great-grandchildren, seated at a table supplied by products from the farm and orchard of the host and hostess, Mrs. John M. Morrow yesterday celebrated their golden wedding at their home at Willowbrook.*

Following the festivities a service in honor of Mr. and Mrs. Morrow was conducted at the Willowbrook Congregational Church and many guests of the district in the vicinity will respond. Mayor Cyster has been invited to make the dedicatory speech.

**LOW BROW AUDIENCES ATTACKED**  
*Vulgar Commercialism of New York Stage Charged to Undesirable Class*

By a "Times" Staff Correspondent  
PASADENA, June 7.—"Low-brow" audiences have lowered the New York stage to a condition of vulgar commercialism with the result that the chief hope of the desirable American drama of the future now rests on amateur and semiprofessional theatrical organizations throughout the country of the little-theater type, declared Clinton C. Clarke today on his return to Pasadena from the national convention of the Drama League of America in New York, where he went as a representative of the Pasadena center of the organization.

"New York is rapidly being overrun by pleasure seekers of a low cultural standard, who are without the education or desire to appreciate the finer things of life," he said. "Theater audiences now demand sensationalism, just and grossness."

"There is small chance for a play of real dramatic worth to open and build up its patronage slowly as under normal conditions. Due to restrictive theater rental. It fails to get its chance, and as a result the New York theater becomes sensational commercialism."

"Finally, the legitimate stage is practically extinct outside of New York and a few large cities. There are less than one-half the legitimate theaters now in operation throughout the country that there were fifteen years ago."

"The one hope of the theater is in the noncommercial or semi-professional companies of the Pasadena Community Playhouse type. During the last few years their influence, prestige and accomplishments have increased amazingly, and through them alone, I believe, can the audience be created which will demand and make possible the improvement of the commercial theater in New York."

**MANN CASE TAKEN OFF COURT LIST**  
*Couple to be Dismissed on White Slave Charge Following Marriage*

The case of United States vs. James C. Bogie and Mrs. Gladys Irene Winterrowd, charged jointly with conspiracy to violate the Mann White Slave Act, yesterday was taken off the court list of United States Judge James pending receipt of an order by U. S. Atty.-Gen. Sargent to dismiss the charges.

The couple were married in Santa Ana on January 28, last, after they had obtained divorces from their respective spouses in Wyoming.

They were arrested in Los Angeles following flight from Casper, Wyo., to Phoenix, Ariz., and then to Los Angeles. They were held in custody until they had been broken up, but the woman and man maintained steadfast love for each other despite showers of adversity from all sides.

Mrs. Winterrowd, now Mrs. Bogie, was the wife of Don Winterrowd, a Casper oil man, and is the mother of three children. The couple are living at 8446 Aguilard street in Culver City.

**Aluminum Plant Promoter Goes on Trial Today**  
*Asserted shady exploitation and promotion of the American Aluminum Plant at Burbank was the charge of the United States District Judge McComick when the trial of William E. Durston, former Los Angeles promoter, on charge of using the mails to defraud, is scheduled to start.*

Durston was taken into custody in Milwaukee last summer, where he is being held pending extradition to a large electrical manufacturing plant at a yearly salary of \$15,000.

**Hubby's 'Front' Sadly Fails to Impress Wife**  
*For success in real estate, Charles E. Hadley soberly explained, as his wife, Helen Henrietta Hadley, told it to Judge Gleason, it is necessary for the salesman to enhance his prestige by keeping up appearances.*

This seemed like a sound theory, Mrs. Hadley agreed. But in the manner of Hadley's application of his theory practice she found a lot of procedure she could not endorse, she said.

"He seemed to think the best way to enhance his prestige was to take attractive-looking young women about with him," Mrs. Hadley related. "And, however, much good it may have done his prestige, it did not affect my share of the income to my advantage. I had to work all the time. He spent his income of prestige faster than he could collect it."

This, she continued, resulted in her being harassed by creditors. Judge Gleason ruled that the whole situation constituted cruelty, and granted a divorce.

**ELYSIAN PLAYGROUND DEDICATION SATURDAY**  
*With an all-day program of athletic contests, drills, games, bands and speeches, Elysian playground, a new recreational site, will be dedicated formally, next Saturday. Hundreds of municipal representatives will be present as will local organizations. The district interested in a supervised playground for the children of that section, Dr. E. F. Ryland, president of the Board of Recreation and Commission, will tender the playground to the city and Councilman many standard in the morning, where several subjects of general interest will be discussed, followed by a continuation of the section meetings in the afternoon.*

**VILLE DE PARIS**  
SEVENTH AT OLIVE  
**B. H. DYAS CO.**

**Smart New Dresses Grouped \$24.50 for Mid-Week Disposal at \$24.50**

**RE-EMPHASIZED for Tuesday and Wednesday!** Again the Ville de Paris calls attention to this remarkable value-group—renewed for a repeated sale!

**THAT** they're unusual dresses in every way, at this \$24.50 marking. Women will readily agree! Some are dresses bought for this occasion—marked very, very closely, to be sure—others are dresses taken from selling-groups far, far higher!

**FLAT** crepe... Georgette... Taffeta, Crepe Roma—prints in profusion, including the chic polka dots—these are the materials, delightfully used—in all the seasonal shades!

**DRESSES** ready to meet dozens of individual demands—and later ones throughout the vacation months—just these "better dresses" that women are planning in June—yet economy-priced! Tuesday and Wednesday—a splendid "Repeat Sale!"

AT THE VILLE—THIRD FLOOR

**A Sale of Lovely Silk Chemise \$2.95!**

**NO** more impressive values have so far entered the lists of summery lingerie at the Ville! Chemise far superior to those one would expect for this moderate price!

**FASHIONED** of pure-silk, durable crepe de chine, they take a number of lace-trimmed forms—others are customarily tailored! With tucks, footings, lovely laces of notable fineness, and touches of real lace—lovely, at \$2.95!

AT THE VILLE—FOURTH FLOOR

**Splendid All Silk Hosiery Low-priced at \$1.85!**

**"TOE GUARD"** service-weight hosiery and "Marvel Stripe" chiffon hosiery, whose maker's name cannot be used in this case—two famous brands enter a Ville de Paris sale!

**THE** one is finished with the patented "Marvel Stripe"—a run-stop stripe above the knee—the other with a clever "Toe-Guard" at the side of the foot. Both "silk from top to toe!"

In Bermuda Sunset, Nude, Silvery Moon, Circassian, Taupe, Gray, Atmosphere!

AT THE VILLE—FIRST FLOOR

**New "American Lady" Corsets and Girdles: some \$4.50!**

**A new shipment of well-designed corsets for the Summer season!**

**NO NEED** to stress the rapidly growing place of the corset in the model! Here are styles for many types of figures, from those lightly boned, to those giving snug support!

"American Lady" Corsets and Girdles range from \$4.50 to \$12.00!

AT THE VILLE—FOURTH FLOOR

**Smart Linen Handkerchiefs Sale-priced: \$1.50 dozen!**

**DOZENS** of fresh, sheer linen handkerchiefs, at wonderful savings! Some are of pure white with various styles of tape and cord borders, with minute hemstitched hems.

**OTHERS** are of colored linens—pink, green, lavender, blue, etc.—trimly finished with hemstitching! Fine, fine quality at this by-the-dozen price!

AT THE VILLE—FIRST FLOOR

**Imported Kid Gloves with Embroidered Cuffs: \$3.95!**

**MOST** specially priced, it is needless to say—and most suitably chosen for summer wear—since dainty cuffs, on gloves of fine, real kid, are the finishing accessory to a costume!

**IN** lovely new shades—in addition to black and white there are mode gray, copper, beige, beaver, P. K. and overcast—sewn—the cuffs in flare or turn-down style!

AT THE VILLE—FIRST FLOOR

**Stoffels Imported Voiles! Under-priced 55c yard!**

**JUST** in time for the making of the voile frocks and lingerie that summer is re-emphasizing—a Ville sale of these delightful voiles! Women acquainted with Stoffels products will know that the price is most unusual—the quality sheer and fine! A two-ply weave, 40 inches wide, in lovely new shades!

AT THE VILLE—SECOND FLOOR

## OUR HISTORY IN PICTURES

430

Political Situation in 1860.

by J. CARROLL MANSFIELD

© McClure Newspaper Syndicate

JOHN BROWN'S RAID ON HARPER'S FERRY (1859) FILLED THE SOUTHERN PLANTERS WITH HORROR AND ADDED TO THE BITTERNESS OF THEIR FEELING TOWARD THE NORTHERN ABOLITIONISTS WHO THEY BELIEVED WERE RESPONSIBLE FOR THE AFFAIR. WITH THE SLOGAN, "SECURITY IN THE UNION OR SEPARATION," THE SLAVE-HOLDERS INCREASED THEIR DEMANDS FOR PROTECTIVE LEGISLATION.

THE DEMANDS OF THE SOUTH WERE PRESENTED TO CONGRESS IN A SET OF RESOLUTIONS INTRODUCED BY JEFFERSON DAVIS (FEB. 1860). THE DRED SCOTT DECISION MUST BE RESPECTED, CONGRESS MUST PROTECT SLAVERY IN THE TERRITORIES AND ENFORCE THE FUGITIVE-SLAVE LAW, AND THE NORTHERN "PERSONAL LIBERTY" LAWS MUST BE REPEALED.

SOON AFTERWARD, LINCOLN ADDRESSED A GATHERING OF EASTERN REPUBLICANS AT COOPER UNION HALL, NEW YORK CITY. IN A STIRRING SPEECH HE EXPONDED THE REPUBLICAN POSITION ON THE SLAVERY ISSUE, CONDEMNED BROWN'S RAID, AND ASSERTED THAT THE SOUTH HAD NOTHING TO FEAR FROM THE ELECTION OF A REPUBLICAN PRESIDENT.

LINCOLN'S REPUTATION HAD PRECEDED HIM TO THE EAST, BUT IT WAS NOT UNTIL AFTER HIS COOPER UNION SPEECH THAT THE EASTERN REPUBLICANS BEGAN TO REGARD HIM AS HIGHLY AS THEY DID BEFORE AND AFTER. THIS SPEECH MADE LINCOLN A SERIOUS CONTENDER FOR THE REPUBLICAN PRESIDENTIAL NOMINATION.

These daily history strips make a unique pictorial history of America. Hundreds are clipping them daily and pasting them in scrapbooks.

## NEW FROCK BEST REJUVENATOR

College Official Tells Women to Buy Clothes, Not Physic; Take Hat as Tonic, Fresh Wardrobe to Renew Youthful Appearance and Feeling

COLLEGE STATION (Tue.) June 7. —The doctrine that a new hat is more invigorating than a box of pills is being officially preached here by the Texas Agricultural and Mechanical College, whose board of regents is presided over by the woman Governor, Mrs. Miriam A. Ferguson.

Whether there is any connection between the purchase of a woman in the Governor's chair and the new gospel of clothes is not divulged, but Mrs. Dana Russell Barnes, clothing specialist of the college, is telling the women of the State that when they feel in need of a tonic to buy a new dress instead.

"One is as old as she thinks she is in order to keep young, try some new clothes instead of a bottle of medicine," declares Mrs. Barnes in her lecture.

This idea in simplest is sent broadcast over the State through the extension department of the college, and farm women especially are being urged to look to their garments for the renewed life which they may need.

Mrs. Barnes is urging the country women to "perk up" and tell them it is not so much a problem of having the money to spend as knowing how to spend what they do have.

"One of the best tonics for the homemaker and the mother of the family is new clothes," she said.

Much of the self-consciousness and awkwardness of some of our women comes from ill-fitting and ill-designed clothes. The person who is well-dressed will wear things suited to herself. She will keep herself well groomed and clean and dress

with modesty and sincerity and not beyond her means.

The classes in the college clothing department and the correspondence courses are being taught along these lines, and Mrs. Barnes declares the result is seen in happier, more self-confident and more independent women.

Not only the disposition but the countenance is benefited by the joy of "knowing that you are well-dressed," she said.

# CRIMINAL CHIEF ON VISIT HERE

## G. Simonds of New York Credits Business Activity to Merchandising

"Times" Staff Correspondent  
 BAKERS, June 7.—Much of the reason for America's industrial leadership of the world today must go to who have developed the distribution of merchandise in this country to its present high efficiency, in the opinion of R. G. Simonds of New York, who has just arrived at the Hotel Huntington.

Simonds is vice-president of Bush Terminal Company of New York, internationally known warehousing port facility and distribution concern, and is familiar with great currents of domestic and international commerce.

His factory is the prosperity of the city.

He is modern method of merchandising—carrying smaller stocks on themselves and negotiating movements—turnovers has speeded up sales and prevented surpluses.

He held for a long period of time, Mr. Simonds said today.

Large quantities of goods at strategic points throughout the country as distributing centers for merchandise, he said, has been one of their goals to the job.

Quickly. Quick distribution has increased manufacturers' increased volume of production."

Simonds is here with Mrs. Gracie, purely on a pleasure trip and is not carrying out business, he said, extending its operations to the Pacific Coast. It is his first trip to the West.

He is president of the Terminal Company.

## SALESTAR ENENES HE TRIED TO DIE

### Dr. Savage Says He Wanted to Make Miss Bow Take Pity on Him

Dr. George Savage, former Yale tutor, said he was not attempting to recently when he made himself uncomfortable in his bachelor quarters, slanted his wrists and poured the blood to spatter upon the graphed face of Clara Bow, movie actress.

He was simply trying to make Miss Bow sorry for him, he asserted yesterday.

He said he was not carrying out business, he said, extending its operations to the Pacific Coast. It is his first trip to the West.

He is president of the Terminal Company.

Factory No. 4

built by our own tailors in this giant Factory No. 4

*built by our own tailors in the*  
**Genuine All-wool  
Tropical worsted**

These suits are cut the same way, made by the same men, sewed with the same **INNER** tailoring as our regular 3-pc. year-round suits at \$25, \$30 and \$35.

Cut from the same fabric, woven by the same mills, as custom-tailored summer suits at \$150 & \$60 — instead of cotton beach duds.

**2**  
piece  
summer  
weight

# Suits

Heretofore small quantities of this new summer fabric loomed from virgin wool in 8 and 9-ounce weights, have gone to custom tailors, at custom tailors' fancy prices. Now 100,000 yards of it have come to us . . . and 50,000 of these fine suits come to you! Beautiful new blues, new browns and grays, smart stripes and mixtures.

**ALL** the style and appearance of full-weight woolen suits, but **HALF** the weight . . . at half the price!

**\$5 For FLANN  
TROUSERS**

New light shades in well cut flannel trousers, snug in the waist and seat, full and free from their down

### \$3 and \$4 STRAWS

**\$2**

Think of getting genuine Flat foots, Swiss Yeddos, fine Sennits and novelties, beautifully hand-finished, at \$2! Fancy bands galore!

A black and white line drawing of a man in a suit and hat, standing with his hands in his pockets. The man is wearing a dark suit jacket, a light-colored shirt, a dark tie, and a dark hat. He is standing with his left hand in his pocket and his right hand in his pocket. The drawing is a simple line art style.

**No more roll-and  
pucker cotton suits!  
Here's All-Wool,  
[sophyr weight]  
hand-tailored!**

We made a few thousand like these last year, and took the public's pulse! It certainly "jumped" at these new summer suits, as smartly styled and seawardly tailored as your 3-piece year-round clothes! This year we've tailored 50,000 of them—thanks to more factory capacity—and they'll not be enough! Think of getting a 3-or-4-year summer suit that will hold its good looks under a WRITTEN GUARANTEE—Think of choosing from dozens of models and dozens of regular worsted patterns and colors—at \$15.00!

**"Dare" any maker of cotton  
clothes to show you  
inner Construction!**

Here's the inside of your cool summer suit of genuine Tropical Worsted—a light strip of linen canvas to anchor the front . . . then fine stitching to shape the collar, mold the shoulder, smooth-roll the lapel! Beautiful hand workmanship—and it makes a suit a SUIT instead of a sack!
